ISSUE	DATE	PURPOSE OF ISSUE	AUTHORISED BY
A	06.11.23	TENDER	JS

Revisions are identified in the column by the number of the issue in which the revision occurred.

Each item that is changed from the text of the tender issue specification is denoted by a vertical line in the right-hand margin adjacent to the paragraph which has been altered.

The information given in this document takes into account the particular instructions and requirements of our Client. No responsibility is undertaken to any other party. This document is not intended for and should not be relied upon by any party for purposes other than those related to the project.

Legend:

Highlighted – Revision alterations as identified in revision column

Red cells – indicates items with long lead times

Grey cells – indicates putting a hold on ordering the product

General Notes:

1. Finishes schedule to be read in conjunction with supplier installation specification sheets.
2. Contractor to confirm all materials/colours with designer prior to procuring materials.
3. Contractor to provide sample swatches of all materials for client/JUICY DESIGN sign-off prior to procuring materials.
4. All finishes awaiting formal sign-off by client pending tender.
5. Paint finishes will be required to be low Volatile Organic Compounds (VOCs).
6. Composite wood products, such as MDF, particle board and chip board will be required to be zero emission formaldehyde, or below 0.05 parts per million (ppm) emission limit 30 days following exposure to air.
7. Timber will be required to be Forestry Stewardship Council (FSC) or Australian Forest Certification Scheme (AFCS) certified.
