Vision pattern- Per m2				

Specifications: Entered 6m2-Gianna to confirm Urgent: to be finalised Hi Gianna, could we get the total m2 for the use of the patters , so that we can finalise the paperwork and order. Thanks Zeca Hi there, we have contacted you about this pattern with red shades. We approved it and we would like to have this printed (in the shades we approved) on the high-level panelling of our lobby. You can see the dimensions of the panels in our plan and elevations, but please note the drawing is WIP due to coordination with the Structural engineer and Metalwork Specialist. There might be minor changes in terms of dimensions once we have confirmation of the dimensions of the post supporting the lobby. Please note, that we will use the pattern from both sides of the panel. Please let us know if you have enough information so we can raise the order. I look forward to hearing from you. Many thanks, Gianna
