**step 1**

Place table top upside down on the floor or any clean, flat surface. Locate the first leg with the corresponding threaded inserts and gently fasten the screws into the top.

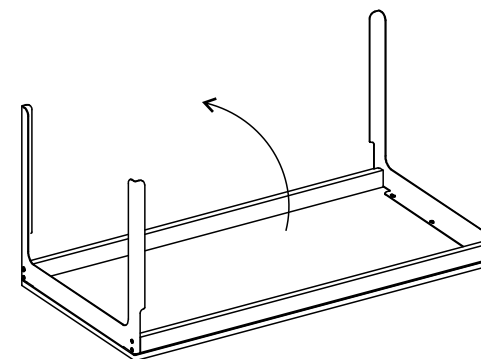

**step 2**

Locate screws into the remaining holes on the leg with the corresponding threaded inserts in the aprons, and gently fasten until the leg is secure.

**step 3**

Fasten the other leg to the table top as per directions in step 2.

**step 4**

Ensure everything is fastened securely before turning table right side up.
